

Di-Electric Grease

CRC Di-Electric Grease seals, lubricates, waterproofs and insulates electrical connections with a thin, non-curing silicone compound that helps maintain electrical performance by reducing line sag, voltage drops and problems caused by adverse weather conditions. It prevents arcing and extends service life, eliminates voltage leaks and protects against corrosion. Di-Electric Grease is also excellent for lubricating and sealing rubber and plastic parts – including 'O' rings.

Applications:

Recommended for use on electrical panels, outdoor lighting, traffic lights, transformers, electrical contacts, household lights, switches, battery terminals, spark plug boots, fasteners, o-rings, rubber and plastic parts.

Features & Benefits:

- Seals, Lubricates, Weatherproofs, Insulates, Protects
- Temperature resistant. Will not harden, freeze, dry or melt due to temperature fluctuations
- Rubber and Plastic safe. Will not degrade seals, gaskets or plastic insulators.

Size: 284g
Part No: 3082
APN: 7825403082
Standard Pack: 12

Size: 4ml/8.0g
Part No: 5107
APN: 7825405107
Standard Pack: 12

Size: 5oz/14.2g
Part No: 5109
APN: 7825405109
Standard Pack: 12
